Re: U.S. Patent No. 7,131,942 B2  
Issued November 7, 2006  
Inventor Jan Lewandowski  
Our Docket No.: 34968US3

Sir:

A Certificate of Correction under 35 U.S.C. 254 is hereby requested to correct Patent Office printing errors in the above-identified patent. Enclosed herewith is a proposed Certificate of Correction (Form No. PTO-1050) for consideration. Also enclosed is documentation in support of this request.

It is requested that the Certificate of Correction be completed and mailed at an early date to the undersigned attorney of record. The proposed corrections are obvious ones and do not in any way change the sense of the application.

We understand that a check is not required since the errors were on the part of the Patent and Trademark Office in printing the patent.

Very truly yours,

Jeffrey J. Sopko, Reg. No. 27676

FEB - 1 2007

19. (original) An apparatus as set forth in claim 16, wherein the means for controlling and the means for determining operate cooperatively such that each transducer is operated to transceive the associated signal without conflict from other signals.

20. (original) An apparatus as set forth in claim 16, wherein the transducers are ultrasound transducers and the associated signal is an ultrasonic signal that is reflected from the respective ear portion, and the means for determining includes means for determining if the associated signal has reflected from a portion of an ear drum of the ear.

21. (original) An apparatus as set forth in claim 20, including means for determining characteristics of a second echo from a middle ear of the ear.

22. (original) An apparatus as set forth in claim 16, including means for using only the signal from only one transducer determined to provide an accurate indication for the ear disorder detection.

23. (previously presented) An apparatus for detecting an ear disorder, the apparatus including:

a plurality of transducers, each transducer being operable to transceive a signal for ear disorder detection;
